Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. NOTIFICATION OF POTENTIAL ORGANIZATIONAL CONFLICT(S) OF INTEREST (NAVSEA) (JUN 1994)

- (a) Offerors are reminded that certain existing contractual arrangements may preclude, restrict or limit participation, in whole or in part, as either a subcontractor or as a prime contractor under this competitive procurement. Of primary concern are those contractual arrangements in which the Offeror provides support to _____, or related laboratories (if applicable), in support of operation of the office or any of its programs. General guidance may be found in FAR 9.505; however, this guidance is not all inclusive. The Offeror's attention is directed to the "Organizational Conflict of Interest" (or similar) requirement which may be contained in current or completed contract(s) which prohibits the prime or subcontractor from providing certain supplies or services to the Government as described above during the period of the current "support" contract(s) or for a period after completion of the "support" contract(s). Notwithstanding the existence or

non-existence of an Organizational Conflict of Interest (OCI) clause or similar requirement in current or completed contract(s), the offeror shall comply with FAR 9.5 and identify whether an OCI exists and not rely solely on the presence of an OCI requirement.

(b) If a potential conflict of interest exists at any tier, each potential prime offeror is requested to notify the Contracting Officer within 14 days of the date of this solicitation. The Offeror shall provide: (1) the contract number and name and phone number of the Contracting Officer for the contract which gives rise to a potential organizational conflict of interest; (2) a copy of the requirement; (3) the statement of work (or technical instruction) from the existing contract; (4) a brief description of the type of work to be performed by each subcontractor under the competitive procurement; and (5) any additional information the Contracting Officer should consider in making a determination of whether a conflict of interest exists. The Government may independently verify the information received from the offeror. Notwithstanding the above, the Government reserves the right to determine whether a conflict of interest exists based on any information received from any source.

(c) The Government will notify an offeror of any conflict of interest within 14 days of receipt of all required information. Those offerors deemed to have a conflict of interest may be ineligible for award. Failure to provide the information in a timely manner does not waive the Government's rights to make a conflict of interest determination. The offeror is notified that if it expends time and money on proposal preparation, such expenditure is at its own risk that the Government will not determine that an organizational conflict of interest exists.

(d) Any potential prime contractor which proposes a subcontractor later determined to have a conflict of interest and deemed ineligible to participate in the current competition, may not be granted the opportunity to revise its proposal to remove the ineligible subcontractor. The Government reserves the right to determine which offerors remain in the competitive range through the normal source selection process.

(e) If the offeror determines that a potential organizational conflict of interest does not exist at any tier, the offeror shall include a statement to that effect in its response to this solicitation.

SECTION "M" - EVALUATION FACTORS FOR AWARD

52.247-50 - No Evaluation of Transportation Costs - May 1984

PROVISIONS IN FULL TEXT

SINGLE AWARD FOR ALL ITEMS

Due to the interrelationship of supplies and/or services to be provided hereunder, the Government reserves the right to make a single award to the offeror whose offer is considered in the best interest of the Government, price and other factors considered. Therefore, offerors proposing less than the entire effort specified herein may be determined to be unacceptable.

BASIS FOR AWARD (NAVSEA) (SEP 1990)

All units of all items will be awarded to one offeror. Offers, therefore, must be on the basis of furnishing all units of all items.

GREATEST VALUE EVALUATION

(a) **The contract resulting from this solicitation will be awarded to that responsible offeror whose offer, conforming to the solicitation, is determined most advantageous to the Government, cost/price and other factors considered.** The offeror's proposal shall be in the form prescribed by this solicitation and shall contain a response to each of the areas identified which affects the evaluation factors for award.

EVALUATION FACTORS

Past Performance

Price

Past performance is significantly more important than price.

(b) **Although cost is not a weighted evaluation factor, it will not be ignored.** The degree of importance of the cost will increase with the degree of equality of the proposals in relation to the other factors on which selection is to be based, or when the cost is so significantly high as to diminish the value of the technical superiority to the Government.

The proposed prices from Section B will be utilized for purposes of this evaluation. The government will determine an evaluated price based upon the proposed prices in Section B. That evaluated price will be added to the following:

In addition, the following prices will be added to each contractor's proposal for a total evaluated price. The total evaluated price will consist of the total evaluated price based upon the pricing submitted in Section B, plus the price associated with travel and labor for NSWC personnel to make the required installations and modifications at the contractor facility.

To each proposal, ADD:

Mileage -

Mileage from Crane to contractor location, the miles will be rounded up to the next highest increment of 50 for purposes of calculating labor. ie...if contractor facility is located 330 miles one way from Crane, the 330 will be rounded up to 350 then multiplied by two for the roundtrip miles expended.

Mileage = $36.5 \times 2 \text{ vehicles} = .73 \text{ cents a mile for roundtrip}$

Labor -

Labor = $1 \text{ hr} / 2 \text{ persons} \times \$77 \text{ (hourly rate) every 50 mile increment of roundtrip miles.}$

33

Per Diem-

Two nights of per diem will be added for every increment of 800 roundtrip miles per person (one night on the way to location, one night on the way home from location).

Per diem rate for individual locations as established by Joint Travel Regulations x 2 people x 2 nights

EXAMPLE

Contractor A -

Place of manufacture is 630 miles away. (one way)

Round trip miles = $630 \times 2 = 1260$ miles

Mileage = \$949 (1260 x .73)

Labor = 1 hr/ 2persons x \$77 x 26 = \$4,004

Per diem for Contractor A location - $\$85 \times 2 \text{ persons} \times 2 \text{ nights} = \340

This total would be added to the evaluated armory cost from Section B pricing for the total evaluated price.

Contractor B

Place of manufacture is 250 miles away (roundtrip 500)

Mileage = $.73 \times 500 = \$365$

Labor = 1 hr/ 2 persons x 77 x 10 = \$1,540

Per diem - N/A

$\$365 + \$1540 = \$1905$

d) The Government may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the offeror's best terms from a cost or price and technical standpoint. However, if considered necessary by the contracting officer, discussions will be conducted with only those offerors determined to have a reasonable chance for award.

(e) The Government reserves the right to make an award to other than the lowest priced offeror or to the offeror with the highest technical score if the Contracting Officer determines that to do so would result in the greatest value to the Government.

PAST PERFORMANCE

During the source selection process, the Government will assess the offeror's past performance in the evaluation for contract award. Accordingly, each offeror is required to submit a list of up to five of its most recent contracts within the past three years, either completed or on-going, for the same or similar products or services. It is preferred that these contracts be with U.S. government customers, but contracts with other commercial concerns are also acceptable. Offerors are authorized to provide information relative to any problems encountered on the identified contracts and any corrective actions taken by the offeror. The Source Selection Authority (SSA)/Contracting Officer will evaluate the offeror's past performance based upon the information furnished by the offeror and/or other information obtained by the Contracting Officer. The Contracting Officer is not responsible for locating or securing any information not furnished with the offer. The SSA/Contracting Officer may, however, utilize all available information, including information not provided by the offeror, in the past performance evaluation. The Government reserves the right to review less than all information submitted, and to only analyze sufficient information to make a reasonable determination of each offeror's past performance rating.

If insufficient information regarding the offeror's corporate history is available, the offeror is encouraged to submit for evaluation evidence of relevant past performance on the part of the offeror's key/principal employees, as either a prime- or sub-contractor.

Past performance is assessed by the SSA/Contracting Officer and is assigned a narrative rating in the evaluation. Each offeror will be given an adjectival rating on past performance: highly favorable, favorable, neither favorable nor unfavorable, unfavorable, highly unfavorable, or no same or similar history. Offerors who do not have same or similar past performance information reasonably available

to the Contracting Officer will not be rated either favorable or unfavorable. The Government reserves the right to award to other than the lowest priced offer as set forth elsewhere in the solicitation. In addition, the Government may accept other than the lowest priced offer if doing so would result in greater value to the Government in terms of technical performance, quality, reliability, life cycle cost, or lower overall program risk. As a part of the past performance evaluation, the Government will assess the offeror's previous compliance with the requirements of FAR 52.219-8 and 52.219-9 as applicable.
